

MONTANA MARBLE 400ML

MARBLE Effect is high-covering spray paint for a deceptively realistic marble effect. It can be used on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic, and other paintable materials. The marble effect is formed by very fine colored paint strands on the surface area of the object in question.

MARBLE Effect is high-covering spray paint for a deceptively realistic marble effect. It can be used on many different surfaces such as paper, cardboard, primed canvas, wood, glass, metal, ceramics, porcelain, stone, acrylic, and other paintable materials. The marble effect is formed by very fine colored paint strands on the surface area of the object in question. The area which is to be sprayed is not entirely covered and will stay partially visible. The MARBLE Effect range consists of 10 inspiring colors including the new Marble Copper, Marble Yellow, and Marble Grey. MARBLE Effect can be top-coated with many common lacquer types once thoroughly dry. MARBLE Effect can be combined with Montana GOLD, Montana ACRYLIC markers, and customary acrylic paints. The MARBLE Effect can is fitted standard with the FLAT JET WIDE calligraphy cap that can be adjusted to create spray output lines in vertical, horizontal, or variations thereof.
