

MONTANA CANS X SNEAKER FREAKER

From fat-laced Clydes in the 70's, Air Max's in the 80's and ZX's in the 90's, the bond between graffiti writers and sneakers is undeniable. That's why we got in touch with the worlds Nr.1 Sneaker Magazine, "Sneaker Freaker". We asked them to design a limited edition spraycan for us in honour of their magazine and the heritage of sneakers in graffiticulture. Sneaker Freaker chose a classic Infra-Red (or Radiant Red to OG Nike heads) as their fluoro hue of choice. See the pictures that speak for themselves and stay tuned for release information.
