

MONTANA WINTER GLOVES

The Montana Winter Gloves are ideal protection for use while handling paint and lacquers. They are an extremely comfortable mix of a nylon shell, a soft brush acrylic lining and a high grip exterior latex coating. These materials allow breathing for your hands to maintain optimum warmth for use between -5 and 8°C. The serrated fingertips offer exact touch and finger positioning. We recommend warm hands before putting the gloves on.

PRODUCT INFORMATION "MONTANA WINTER GLOVES"

The Montana Winter Gloves are ideal protection for use while handling paint and lacquers. They are an extremely comfortable mix of a nylon shell, a soft brush acrylic lining and a high grip exterior latex coating. These materials allow breathing for your hands to maintain optimum warmth for use between -5 and 8°C. The serrated fingertips offer exact touch and finger positioning. We recommend warm hands before putting the gloves on. Available in four different sizes: Small (grey lining), Medium (green lining), Large (blue lining) and Extra Large (red lining), comes as a pair. Keeps your hands warm and clean!
