PRODUCT INFORMATION "MONTANA BOLD MARKER 10MM CHISEL"

This Montana BOLD Marker 10mm Chisel comes in a sturdy built-to-last aluminum body with a nicely designed timeless BOLD branding. Equipped with a 10mm chisel tip, this BOLD marker is refillable and the 10mm felt tip is replaceable. The Montana BOLD Marker 10mm contains 20ml of a super deep and high covering black BOLD ULTRA INK, that is made of extremely low-viscosity, alcohol-based formula. Montana BOLD ULTRA INK is weather and UV resistant, making it a real "made to stay" formula. The luscious, semi gloss finish ULTRA INK, can be applied to almost any surfaces. The ink is delivered through the markers felt tip by a refillable, pump system valve, that works perfectly with extremely low-viscosity inks, offering exceptional flow, especially on non porous surfaces like metal, glass or plastics. Montana BOLD ULTRA INK is permanent and highly abrasion proof, resulting in extraordinary high coverage and super quick drying time. The Montana BOLD ULTRA INK is deep, rich Black color, great for Tagging and Street Marking. Prepare for impressive fresh drips, so remember to wear gloves when hitting the streets.

10mm Chisel Tip Size

The Montana BOLD 10mm Chisel is a quiet achiever of tagging marker sizes, with the durability of a large tip marker. As the Chisel tip slants to a sharp edge, this tip size has a calligraphic quality that can be manipulated for it's surface area, or can to exaggerate marking widths and flow changes between horizontal and vertical during use. The flow control pump action valve gives users the opportunity to release or decrease the amount of ink flowing throw the 10mm Chisel tip. The 10mm Chisel is filled with the much sort after alcohol based, optimized, deep black, ULTRA INK, certified with ASTM-D4236 Standard.

Other Montana BOLD products

The Montana BOLD Marker is also available as 15mm Standard, 8mm Round tip and a thinner 3mm Chisel tip Marker, with the BOLD ULTRA INK Refill 200ml as the perfect match to this series of Markers.
