PRODUCT INFORMATION "BLACK ARTIST EDITION FUNC"

The next Montana BLACK Artist Edition is out now! No. 13 features the Paris based Graffiti Artist Func'88 who chose the color BLK 3940 Magic out of the Montana BLACK 400ml high pressure Line. Graphic designer, but also graffiti writer and illustrator Func'88 started as it name says, in the year of 1988. Living the "golden age" of graffiti in France has been "the best times without being too nostalgic," he affirmed. Trying to perpetuate the spirit of the old Parisian style, Func adds a modern ultra touch. For him, the 80's were days full of innocence and discoveries, in terms of creation. „My favorite one is the Montana „BLACK“ so when the idea of an artist edition came along, i obviously chose it and pick the 3940 Magic color because it's a tone I frequently used in my pieces and I love the name – „BLACK Magic." he is saying. **This Montana BLACK Artist series is a limited edition can – only while stock lasts!**
