The Montana OUTLINE CAP is a skinny cap for fine line application that was one of the original "banana" shaped bodies. Also know as the BANANA OUTLINE CAP for this reason, the OUTLINE CAP offers an average clean spray width of 1cm to 4cm. An all rounder of sorts, the OUTLINE CAP is often chosen because of its shape, which creates an alternative feeling to the trigger finger then a round-bodied cap. Fitting on all female valve cans like Montana GOLD, Montana BLACK or Montana White, the OUTLINE CAP is used by graffiti artists, urban artists, street artists, art & crafters as well as DIY enthusiasts. The spray width changes with the used distance to the object. For skinnier lines, spray from a closer distance. For fatter lines, spray from a further distance.
