

MONTANA PIN SET – KEY TO THE CITY

At some point in every graffiti writer's life, there are times when only the right tools for a job will get the job done. Tools like bolt cutters, angle grinders, and railway keys are always helpful and function like your own keys to the city.

PRODUCT INFORMATION "MONTANA PIN SET – KEY TO THE CITY"

At some point in every graffiti writer's life, there are times when only the right tools for a job will get the job done. Tools like bolt cutters, angle grinders, and railway keys are always helpful and function like your own keys to the city. The Montana Pin Set - KEYS TO THE CITY feature exactly these three tools. Made of soft enamel, with two steel pins on each design for secure fastening, each design lovingly captures the character of each item, like the warm red of the bolt cutter handles, the welcomed modern touch of the take anywhere cordless angle grinder, and the imaginary metallic jiggle of the European railway key (the square key) that opens the doors to varied railway adventures. Able to be attached to clothing, jackets, bags, and soft material surfaces.
